### SCIENCE FINANCE/DOUBLE FEATURE LYRICS

Ben Bernanke was ill the day the earth stood still  
Volcker told us where we stand  
And Flash Darling was there in silver underwear  
George Brown was the invisible man  
Then something went wrong, Fannie Mae played mahjong  
She got caught in an Alan Greenspan jam

A. Turner stars in forbidden planning  
Oh-oh at the late night, double feature, finance show.

And I really got hot when I saw Larosière's plot

Passing the buck used lots of skill  
But when worlds collide said George Bush to his bride  
True evil gives you some terrible thrills, like a:

Science Fiction – Finance Feature  
Rocket Science will build a creature  
See algos fighting, shorting, banning  
A. Turner stars in forbidden planning  
Oh-oh at the late night, double feature, finance show.

Oh-oh at the late night, finance feature, picture show.  
I wanna go, oh-oh, to the late night finance feature picture show.  
By CDO, oh-oh, at the late night finance feature picture show.  
In the back row at the late night finance feature picture show.
